

# Machine Upgrades

## Encore™ 2.0R - Control Solutions for GE Machines

Introducing Encore™ 2.0R. Husky's latest entry level upgrade option with a shorter delivery and installation times. This package addresses all critical control components found on all GPET machines and is fully scalable to our complete Encore™ 2.0 package.

Husky is actively promoting short, medium and long-term strategies to suit your specific needs; Updated user interface, Encore™ products and new machine replacement programs. Together, our CSM Business Advisors, Service Managers and Sales Representatives, can work proactively to find the best strategies and options and meet your needs.
